

Material Safety Data Sheet for Aqium™ Gel

Issue Date: Jan 2012

Page 1 of 9

Section 1 - CHEMICAL PRODUCT AND COMPANY IDENTIFICATION

Product Name Aqium™ Antibacterial Hand Gel (Aust R 76927)

Proper Shipping Name Ethanol (Ethyl alcohol)
Ethanol Solution (Ethyl alcohol solution)
Ethanol (Ethyl alcohol) or Ethanol Solution (Ethyl alcohol solution)

Product Use Hand sanitiser for infection control.

Supplier Company: Ego Pharmaceuticals Pty Ltd
Address: 21 - 31 Malcolm Road
Braeside
VIC, 3195
AUS
Telephone: +61 3 9587 1088
Telephone: 1800 033 706
Fax: 03 9580 7647

Section 2 – HAZARDS IDENTIFICATION

Statement of Hazardous Nature Non-Hazardous (by the criteria of Worksafe Australia)
Packaging Group: II
UN Number: 1170
Dangerous Goods Class/Subsidiary Risk: 3
Hazchem Code: 2 [Y]

Poison Schedule None. Unscheduled.

Risk Flammable.
Irritating to eyes.

Material Safety Data Sheet for Aqium™ Gel

Issue Date: Jan 2012

Page 2 of 9

Safety

Do not breathe gas/fumes/vapour/spray.
Use in well ventilated areas.
Keep large quantities in a well ventilated space.
To clean the floor and all objects contaminated by this material, use water.
Keep container tightly closed.
In case of contact with eyes, rinse with plenty of water and contact a health care professional or the Poisons Information Centre on 13 11 26 (all states).
If swallowed, contact a health care professional or the Poisons Information Centre on 13 11 26 (all states).

Section 3 – COMPOSITION / INFORMATION ON INGREDIENTS

Constituent	Type
Ethanol – denatured*	Active
Thickener	Excipient
Dexpanthenol	Excipient
DL-alpha-tocopheryl acetate	Excipient
Fragrance	Excipient
pH neutraliser	Excipient
Water – purified	Excipient

* Equivalent to 66% Ethanol

Section 4 – FIRST AID MEASURES

Swallowed

This product contains 66% ethanol. Give plenty of fluids and seek medical advice.

For advice, contact a Poisons Information Centre (13 11 26 all states) or a health care professional at once.

Issue Date: Jan 2012

Page 3 of 9

Eye	Avoid assembling dispensers at eye level. If this product comes in contact with the eyes, rinse immediately with clean water. Seek medical advice.
Skin	No adverse effects anticipated from normal use. This product is intended to be in contact with human skin. If irritation occurs, rinse with clean water and discontinue use.
Inhaled	No effects with normal use. If fumes or combustion products are inhaled, remove patient from contaminated area and seek medical advice.
Notes to Physician	Treat symptomatically.

Section 5 – FIRE FIGHTING MEASURES

Extinguishing Media	There are no restrictions on the type of extinguishing media which may be used. Choice of extinguishing media should take into account surrounding areas. Heat from a nearby fire may cause evaporation of water from the product, resulting in floating layers of combustible substances. In such an event consider: Foam Dry chemical powder Carbon dioxide
Fire Fighting	Alert Fire Brigade and tell them the location and nature of the hazard. When any large container > 5L (including road and rail tankers) is involved in a fire, consider evacuation by 500 meters in all directions.
Fire/Explosion Hazard	No significant fire hazard under normal circumstances. Contains ethanol, may be dangerous when exposed to heat. See flash point and flammability data under the heading Physical Description/Properties. No significant explosion hazard under normal circumstances. May become a hazard in the event of a fire if large numbers of containers are stored together.

Issue Date: Jan 2012

Page 4 of 9

Section 6 – ACCIDENTAL RELEASE MEASURES

Minor Spills

No special requirements.
Remove all ignition sources and clean up all spills immediately.

Major Spills

Clear area of personnel and move upwind.
Alert Fire Brigade and tell them location and nature of hazard.
May be violently or explosively reactive.
Wear breathing apparatus plus protective gloves.
Prevent, by any means available, spillage from entering drains or water course.
No smoking, naked lights or ignition sources.
Increase ventilation.
Stop leak if safe to do so.
Water spray or fog may be used to disperse/absorb vapour.
Contain spill with sand, earth or vermiculite.
Use only spark-free shovels and explosion proof equipment.
Collect recoverable product into labelled containers for recycling.
Absorb remaining product with sand, earth or vermiculite.
Collect solid residues and seal in labelled drums for disposal.
Wash area and prevent runoff into drains.
If contamination of drains or waterways occurs, advise emergency services.

Section 7 – HANDLING AND STORAGE

Suitable Container

Packing as supplied by manufacturer. Plastic containers may only be used if approved for flammable liquid. Check that containers are clearly labelled and free from leaks.

Issue Date: Jan 2012

Page 5 of 9

Procedure for Handling Bulk or Large Quantities

Avoid all personal contact, including inhalation.
Wear protective clothing when risk of overexposure occurs.
Use in a well-ventilated area.
Prevent concentration in hollows and sumps.
DO NOT enter confined spaces until atmosphere has been checked.
Avoid smoking, naked lights or ignition sources.
Avoid generation of static electricity.
Earth all lines and equipment.
Use spark-free tools when handling.
Avoid contact with incompatible materials.
When handling, DO NOT eat, drink or smoke.
Keep containers securely sealed when not in use.
Avoid physical damage to containers.
Always wash hands with soap and water after handling.
Work clothes should be laundered separately.
Use good occupational work practice.
Observe manufacturer's storing and handling requirements.
Atmosphere should be regularly checked against established exposure standards to ensure safe working conditions.

Storage Requirements

Store away from dangerous chemicals.
Store below 30°C.
Store in original containers.
Keep containers securely sealed.
No smoking, naked lights, heat or ignition sources.
Must comply with any regulations applicable to the transport of flammable goods.

Section 8 – EXPOSURE CONTROLS / PERSONAL PROTECTION

Hands / Ventilation

No special requirements under normal use.

Section 9 – PHYSICAL AND CHEMICAL PROPERTIES

Appearance	Clear colourless gel
Boiling / melting point	> 78°C
Percent volatiles	66%
Specific gravity	Approx. 0.87 g/mL
Flash point	18°C (closed cup)
pH	6.0 to 7.5
Ingredient CAS Number: DENATURED ETHANOL	64-17-5

Section 10 – CHEMICAL STABILITY AND REACTIVITY INFORMATION

Conditions Contributing to Instability : Segregate from strong oxidisers

Section 11 – TOXICOLOGICAL INFORMATION

POTENTIAL HEALTH EFFECTS

Acute :

Swallowed

Accidental ingestion may be damaging to the health of the individual. Ingestion of ethanol may produce nausea, vomiting, gastrointestinal bleeding, abdominal pain and diarrhoea. Mild systemic effects include impaired visual acuity, coordination and reaction time, emotional lability.

Material Safety Data Sheet for Aqium™ Gel

Issue Date: March 2007

Page 7 of 9

Eye	The product may cause severe irritation to the eye causing pronounced inflammation.
Skin	Not considered to cause discomfort through normal use.
Inhaled	Not considered to cause discomfort through normal use.
Chronic:	Not considered to cause discomfort through normal use.
TOXICITY AND IRRITATION:	Ethanol: Oral (human) LDLo: 1400mg/kg Skin (rabbit): 400mg (open) – Mild

Section 12 – ECOLOGICAL INFORMATION

Do not discharge into sewer or waterways.

When ethanol is released into the soil it readily and quickly biodegrades but may leach into ground water; most is lost by evaporation.

When released into water the material readily evaporates and is biodegradable.

Section 13 – DISPOSAL CONSIDERATIONS

Empty packaging may be placed in the Recycling bin.

Section 15 – REGULATORY INFORMATION

POISONS SCHEDULE

None

REGULATIONS

Ethanol (CAS: 64-17-5) is found on the following regulatory lists:

- Australia High Volume Industrial Chemical Substances (HVICL)
- Australian Inventory of Chemical Substances (AICS)
- Australian Poisons Schedule
- International Council of Chemical Associations (ICCA) – High Production Volume List
- OECD Representative List of High Production Volume (HPV) Chemicals

Water (CAS: 7732-18-5) is found on the following regulatory lists:

- Australian Inventory of Chemical Substances (AICS)
- OECD Representative List of High Production Volume (HPV) Chemicals

Section 16 – OTHER INFORMATION

Aqium™ Gel has been included on the Australian Register of Therapeutic Goods (ARTG) of the Therapeutic Goods Administration, an arm of the Commonwealth Department of Health and Aging.

Aqium™ Gel is labelled according to stringent therapeutic goods requirements as determined by the Standard for the Uniform Scheduling of Drugs and Poisons and the current Therapeutic Goods Order General requirements for labels for drug products.

The ingredients in Aqium™ Gel have been assessed for both safety and efficacy by the Therapeutic Goods Administration.

Issue Date: Jan 2012

‘Ego’ and ‘Aqium’ are Trade Marks of Ego Pharmaceuticals Pty Ltd.
